

Postmates

Postmates is an on-demand mobile food delivery application. The application allows users to discover, order, and track delivery on their mobile phone, instead of waiting for the delivery guy to call you. Postmates cooperates with over 5,000 restaurants, and operates in over 3,000 U.S. cities. It offers delivery from restaurants that are nearby to your location. You can also order food pickup if you don't want to wait. This tutorial will teach you how to order a food delivery from the Postmates mobile application, so next time when you are hungry, and there is no food at home, you will still be able to eat a proper meal.
